

Inspired by my soulful Greyhound Max who has taught me to love unconditionally, live in the moment, be patient and kind, accept life on life's terms and to find joy in everything that I do.

On Feb 28, 2015, I became certified as a Reiki Practitioner and started on a wonderful new journey of Energy Healing.

My mission is simply to reciprocate the love, support, and healing given so graciously by my animal companions by offering powerful and transformational Reiki Healing Sessions.

Reiki & The Benefits Of Energy Healing

* Reiki is the practice of facilitating the Universal Life Force Energy through the practitioner's hands by placing them lightly on the clients body for healing.

* It is gentle, painless, non-invasive, and stress free

* Reiki is safe, comfortable, and complements both conventional and alternative therapies.

* Heals at all levels: physical, emotional, mental & spiritual, reduces aches & pains, energizes & balances, while enhancing well being

* Reiki induces deep relaxation and stress reduction and helps maintain health on all levels.

* Provides compassionate support for the dying and can make the transition more peaceful for all concerned.
